West Career & Tech 2025-2026

AP COMPUTER SCIENCE PRINCIPLES

This one-year college-level course is an introductory computing course that introduces students to the breadth of the field of computer science. Students learn to design and evaluate solutions and to apply computer science to solve problems through the development of algorithms and programs. *Student is required to take AP Exam.

AP HUMAN GEOGRAPHY

This one-year course is designed for the college-bound student. This course provides students with an understanding of the systematic study of patterns and processes that have shaped, and continue to shape, human understanding, use, and alteration of the Earth's surface. This course will focus on the methods and tools geographers use in their science to employ spatial concepts and landscape analysis within a geographical, historical, political, economic, and cultural context. *Student is required to take AP Exam.

ART I

This one-year foundation course is designed to provide a basic understanding of the elements and principles of art as emphasized through the production of art, the study of art history, aesthetics, and art criticism.
